MC-X 5kW FEATURES

- REDUCTIONS IN OPERATING COSTS
- SECURE, LOCAL CONTROL OF DATA
- TOTAL SUPPORT FOR 5 YEARS
- NO NEED FOR IN HOUSE ENGINEERING
- GROWS WITH YOUR BUSINESS
- ELIMINATES CO-LOCATION COSTS
- COMPREHENSIVE MONITORING AND CONTROL
- MINIMIZES LATENCY
- DEPLOYMENT AT SPEED OF NEED
- REDUCED CAPITAL COSTS

MC-X 5kW SPECIFICATIONS

Power for IT Load	5kW
PUE	1.5
Cooling	In-row vented (DX optional)
Battery Backup	5+ minutes at 5kW load
UPS	Optional
Fire suppression	Optional
IT Rack space	42RU (compact option: 20RU)
Security	Key or fingerprint
Size	1.5mx2.0mx1.2m (WHD) 1.0mx2.0mx1.2m(compact option)
Technical Support	5 Years included

BUSINESS PROBLEMS? SOLVED!

The Cinnos MC-X is a complete technical solution to a wide range of business problems. Although offerings like co-location and cloud hosting may make sense for a while, as organizations grow, they frequently want to increase their data security, reduce latency and manage costs among other objectives.

SMART SPENDING

Traditional methods of building data centres take a long time and tie up large amounts of capital, hosting costs can quickly rise, particularly for high growth companies. Cinnos Rapid Deployment Data Centres dramatically reduce the capital required to have a fully functional, installed data centre. The stringent design and testing, performed before delivery and during setup, results in lower operating and support costs for your enterprise.

The Cinnos MC-X product is modular, and scalable. As your business grows, our system can be moved and expanded simply, quickly and without significant spending on tradesmen and technologists.

A COMPLETE SOLUTION

The MC-X is designed with all of the required components for your data centre, secured and monitored by Cinnos' intelligent monitoring solution and fully supported by Cinnos. Data centres are mission critical components of your business plan, and Cinnos provides the support you require to keep your systems running. The MC-X allows you to focus your budget, people and time on operating your business.
